

*Have a Blessed New Year*

*Prayer for the New Year*

Written by M. Lee Bozeman

Holy Child Jesus, I thank you for another bright New Year of hope. You are my eternal light and my salvation. As I begin this New Year illuminate my heart and soul with Your joy and peace so that I may spread Your goodness and love to all. Inspire in my heart forgiveness and compassion for hurts I have endured in the past years. Restore the damaged sections of my heart and soul that I have injured by my past sinfulness. Generate within me thoughts of kindness toward my neighbor. Cleanse me of all self doubt, worry, sinful thoughts and inclinations so that I may never stray from my true goal of reaching heaven. May I be joyful even in my sufferings of this year knowing that it is for the good and sanctity of my soul. Allow me the graces necessary to live an upright and holy year. I ask this in Thy Holy and Blessed Name. Amen.
